

# 6 tips to stay safe online

The digital world offers a universe of possibilities, but we also need to be aware of the dangers in this digital world. SMaRT-EU formulated some guidelines on how to stay safe online. Discover them below!

**01**

Strong passwords are important: using a password manager and/or 2 step verification can help.

**02**

When receiving urgent messages that require you to take immediate action like transferring personal information or money: always double check.

**03**

Ask advice from family, friends or professional workers when navigating the online world.

**04**

If something seems too good to be true, be aware. It probably is.

**05**

Inform yourself about new developments online and scams. Ask friends and family for help.

**06**

Make a backup of your computer and phone data regularly. This can be done on an external hard drive or in the cloud.
